

REMARKS

At the outset, the courtesies extended by the Examiners in granting the 15 September 2010 interview are appreciatively noted. During the interview, the sole rejection maintained in the 18 June 2010 Office Action was discussed in light of clarifying amendments initially proposed to the Claims by the undersigned Attorney. Further clarifying amendments, as well as the substance of the discussions at the interview, are reflected herein.

Responsive to the 18 June 2010 Office Action and the discussions had at the interview, each of the pending Claims 1, 4-5, 8-9, 15, 18-19, 22-23, 29, 31, and 34-35 has now been amended for further clarification and consistency in terminology.

In the Office Action, the Examiner found Applicants' earlier-filed Response persuasive in part, and withdrew the earlier rejections of claims under 35 USC §112, second paragraph, and 35 USC §§102(e), 103(a). The Examiner, however, maintained the rejection of Claims 1, 4-5, 8-9, 15, 18-19, 22-23, 29, 31, and 34-35 under 35 USC §112, first paragraph, as failing to comply with the written description requirement, and for containing subject matter not adequately described in the specification to reasonably convey possession of the claimed invention.

In maintaining this rejection, the Examiner reasoned that the claims could still be interpreted in a manner inconsistent with the Board's Decision on Appeal

of this case. As discussed and agreed at the interview, the clarifying amendments hereby incorporated into the Claims now obviate such concerns. Accordingly, withdrawal of the rejection is respectfully requested.

With the removal of this sole remaining basis for rejection, it is respectfully submitted that the subject Patent Application is fully in condition for allowance. Such action is respectfully requested.

Should any fees associated with this filing remain unpaid, the Honorable Commissioner for Patents is hereby authorized to charge Deposit Account #50-5298 for such unpaid fees.

Respectfully submitted,
For: ROSENBERG, KLEIN & LEE
